Directions: Read the passage. Write the correct answer for each question.

Caterpillars

A caterpillar is a worm-like insect that just hatched from its egg. There are many different kinds of caterpillars. They are usually brown or green and hairless, but some are brightly colored and fuzzy. Most caterpillars eat only the leaves and fruit of plants. A caterpillar eats and eats until it grows very fat. Then it turns into a *chrysalis*, which is a like a hard shell. The caterpillar inside will soon emerge as a new butterfly or moth!

What do most caterpillars eat?

What happens after a caterpillar grows very fat?

What will emerge from a chrysalis?

Read the short passage and answer the questions.

Piper the Panda

Peter went to a toy shop with his aunt. On the shelf of the shop, he saw a black and white panda. He asked his aunt to buy him the panda.

The panda had a black patch on one of his eyes. It also had a round nose. Peter loved his panda very much. He named him Piper. Peter was happy to have got Piper home. He took good care of Piper. Peter would carry Piper every place he would go. He would take him to school, art class and to the market.

Piper became Peter's best friend. At school Peter's friends; Kylie, John and Duke also became friends with Piper.
